Our current wine list features 150 plus labels from Italy and the rest of the world.

80% of the list, is of wines coming from all over Italy, with a major focus on the Southern regions of the Peninsula, to fit the cuisine style of Chef Joe Cicala, alongside with some of the most important and historic wine regions of the Country. These wines are made from indigenous and/or traditional varietals and they are characteristic of the place, the terroir, the wine laws of where they come from.

The remaining 20% of the list, is of wines coming from some of the most important wine regions around the World, with the attention of bringing top producers that best represent that specific wine region.

The philosophy behind our list is to present an array of grape varietals and wine styles that can satisfy the different palates and likes of our guests. It is also to introduce some obscure and lesser-known local regional varieties and last but not least to educate our guests about the wine culture.

The whole list is of wines made organically and with sustainable practices that respect the nature, love and passion that millions of people have in the winemaking world.
